Welcome to the 10<sup>th</sup> annual L.U.C.K. (**Let us cherish our kids**) golf outing and auction.

Congenital Heart Defects are the number one birth defect and number 1 killer of kids under the age of 15, (with the exception of accidents).

We have funded Congenital Heart Defect research at Pittsburgh Children's Hospital and will continue to support research that we find worthy of your investment. We have also provided Pulse Oximeters to premature babies. Pulse Oximeters can diagnose up to 25% of all Congenital Heart Defects. We will continue to support medical care for children born with heart defects, so they can lead better and more productive lives.

This year's event will again be held at the Chestnut Ridge Golf Resort, 132 Pine Ridge Road, Blairsville, Pennsylvania 15717. Phone: (724) 459-7191. We will use both golf courses, Tom's Run and Chestnut Ridge.

We are holding a Dinner, Chinese and Silent Auction for all Golfers and additional guests who care to support our cause. Please consider donating Auction Items as an additional way to raise funds.

A limited number of rooms are available at the Hampton Inn on the premises. Please call (724) 459-5920 and mention you are attending the L.U.C.K. Golf Outing to get the event rate.

## Our Story...

### *The Fischerkeller family*

*established the MPF Memorial Fund in memory of their son, Matthew. Matthew was a junior at Penn Trafford High School in Harrison City, PA when he passed away from a congenital heart disorder on 4-14-2005. He was a High Honors student who had a passion for life and music.*

*Matthew was a "friend to the friendless" and had a "heart of gold". His kindness, integrity, character and warm smile will be missed by all who knew him.*

*The non-profit has transitioned over to Rock For The Heart, Inc. The Fischerkeller family decided Rock For The Heart was a more fitting name as a tribute to their musically-talented son, Matthew.*

## Our Mission...

The Mission of the Foundation is to promote and support research intended to prevent sudden cardiac arrest due to congenital heart disorders in the young.
